## WHO WE ARE

Unified Automation SRL is an independent industrial automation integrator based in Timiș county, Romania. We program and modernise control systems across multiple platforms — Siemens, OMRON, Beckhoff and CODESYS — covering the full project chain: application analysis, PLC and motion control programming, SCADA systems, industrial networks, IIoT connectivity, on-site commissioning and staff training. We deliver both new projects and retrofits of existing equipment. Our projects span industries such as packaging, automotive wiring and technical textiles; references available on request.

## SERVICES

### PLC Programming

Program development and modernisation — Siemens, OMRON, Beckhoff and CODESYS.

### Motion Control

Servo drive and axis configuration and programming — positioning and synchronisation.

### IIoT & Connectivity

Data collection and exchange via MQTT, OPC UA and REST APIs — IT system integration.

### Industrial Networks

EtherNet/IP, EtherCAT, Profinet and Modbus TCP — configuration, diagnostics and optimisation.

### Commissioning

Installation, signal testing, troubleshooting and machine start-up.

### Staff Training

Operation and maintenance training, documentation included.

## HOW WE WORK

## WHY UNIFIED AUTOMATION

- ✓ Multi-platform: Siemens, OMRON, Beckhoff, CODESYS
- ✓ Bilingual technical documentation RO/EN
- ✓ Monthly support & maintenance contracts
